

## WASDE – August 12, 2019

**SUGAR:** Beet sugar production for the August-July 2019/20 crop year is projected at 5.106 million short tons, raw value (STRV) on sugarbeet area and yield forecasts made by NASS in Crop Production and recent year averages for sucrose extraction and pile shrink. Most of the increase over last month is projected to occur in the early August-September harvest year period, resulting in an increase of 88,653 STRV to 5.008 million for the 2018/19 fiscal year. Beet sugar production for 2019/20 is increased to 5.179 million STRV. Florida cane sugar production for 2019/20 is increased by 44,603 STRV based on a strong NASS forecast of sugarcane yields that pushes the projected sugarcane crop up 2.4 percent over the prior year.

Imports for 2019/20 are increased by 24,302 STRV primarily on the USDA decision to extend the period of entry of the 2018/19 raw sugar TRQ to October 15. Deliveries for human consumption for 2018/19 are increased by 75,000 STRV to 12.200 million based on strength in direct consumption imports. Through June, however, deliveries by domestic processors have remained relatively flat for the past two years. Human consumption deliveries for 2019/20 are increased in line but only by 50,000 STRV in a changing sugar and sweeteners' deliveries environment as evidenced by flat to declining total and per-capita caloric sweeteners and refined sugar for calendar years 2016-18. (See Tables 49 and 50 at the ERS Sugar and Sweeteners Yearbook.) Ending stocks for 2019/20 are projected at 1.699 million STRV for a stocks-to-use ratio of 13.74 percent. There are no significant changes from last month to sugar supply and use in Mexico for 2018/19 or for 2019/20.

1/ Fiscal years beginning Oct 1. Data and projections correspond to category components from "Sweetener Market Data" (SMD). 2/ Production projections for 2018/19 and 2019/20 are based on Crop Production and processor projections where appropriate. 3/ For 2018/19, WTO raw sugar TRQ shortfall (28) and for 2019/20 (99). 4/ Composed of sugar under the re-export and polyhydric alcohol programs. 5/ Imports from Mexico; and high-tier tariff sugar and syrups not otherwise specified -- for 2018/19 (90) and 2019/20 (70). 6/ Transfers accompanying deliveries for sugar-containing products to be exported (SCP) and polyhydric alcohol manufacture (POLY), and deliveries for livestock feed and ethanol. Total refiner license transfers for SCP and POLY inclusive of WASDE-reported deliveries: 2017/18 -- 278; estimated 2018/19 -- 324; projected 2019/20 -- 340.
